THE BEAUTY OF THE EVERYDAY

# THE BEAUTY OF THE EVERYDAY

Life is made of small rituals:  
morning light filling the room,  
the warmth of a shower,  
the quiet moment of making the bed  
and watching the space become a  
sanctuary.

This is where our attention rests,  
on what truly matters, on the beauty  
of the everyday.

These are the moments in which life  
feels present.

Where design lives naturally and  
without effort.

Taking a little time to slow down, to  
breathe, to notice, is an act of care.

At Vivenda, we craft with you  
experiences of rest that feel memorable  
and grounding.

For 26 years, we've transformed textiles  
into atmospheres, shaping spaces that  
invite you to live with presence and  
intention.

*Transforming a space to truly inhabit it.*

Welcome to Vivenda.

## NOMAH STUDIO

**LAURA NATIVIDAD  
Y DANIA GUTIÉRREZ**

At NOMAH, we design hospitality spaces tailored to the individual. From furniture and color palettes to accessories and styling, every detail has intention: to create meaningful experiences of comfort and well-being.

We believe a space can become a refuge, a place where light, materials, textures, and intention come together in harmony to invite rest and connection.

Our work focuses on creating environments that support quality of life, deep comfort, and restorative sleep.

IVETTE BERRONDO

## IVETTE BERRONDO

CENTRAL DE ARQUITECTURA

With more than 20 years of experience in residential and hospitality design, our studio focuses on creating spaces that promote rest and well-being. Through neutral palettes, high-quality textiles, woods, and thoughtful detail, we seek balance between the client's personality, warmth, and a soft sense of luxury.

For us, everyday luxury lives in the fusion of functionality and beauty, creating spaces that elevate daily life. Each environment is designed to offer comfort, rest, and harmony — turning the simplicity of each day into a meaningful and pleasurable experience.

## ELIAS EZQUERRO STUDIO

MA. ROSA HERNÁNDEZ  
Y CECILIA RIVERO

At our studio, we design spaces that cultivate well-being through balance. We work with colors, materials, and textures that invite the body and mind into a state of ease, creating atmospheres that feel natural and quietly restorative.

For us, design begins by listening to how a person wants to live. Every choice —a palette, a texture, a form— supports a way of being. We create spaces that hold, replenish, and gently renew.

# ELEVE

## ELEVE INTERIORISMO

LILIANA VILLALOBOS

ELEVE is an interior design studio focused on transforming luxury residences into personal sanctuaries. We create environments of deep rest and complete well-being, where architecture, natural light, and tactile materials come together to elevate everyday living into an experience of calm and harmony.

We believe true luxury lives in the harmony of a space and the well-being of those who inhabit it. Each project is guided by thoughtful material selection and refined detail, turning daily routines into moments of serenity and conscious enjoyment.

# HOTEL BOUTIQUE CASA 63,

30

In the heart of San Miguel de Allende, Casa 63 inhabits a centuries-old home where history and hospitality meet. Steps from the city's most emblematic churches and vibrant streets, the house offers a quiet refuge beyond its adobe walls. Its 17th-century wash basins and INAH-protected ruins preserve the soul of a bygone era while framing an experience of calm and belonging.

31

At Casa 63, service is a shared language. The entire team moves in harmony — attentive, thoughtful, and perfectly in tune. Here, luxury is measured in attention; every stay is designed with intention.

“From the moment you walk in, you feel it — Casa 63 is a place where comfort breathes.” — NANCY RODRÍGUEZ

"Casa 63 and Vivenda go hand in hand: true luxury is how you make your guest feel."

Guests are greeted with a lavender-scented facial towel and a refreshing drink courtesy of Kali, the hotel's rooftop restaurant with panoramic views of San Miguel. Kali serves contemporary Mexican cuisine inspired by the flavors of the country's southern and central regions. Its terrace — one of the city's best-kept secrets — invites guests to linger in silence and watch the afternoon light turn golden.

Casa 63 brings together history, wellbeing, and design in perfect balance. The Lua Spa, the Speakeasy Cava, the reading lounge, and the rooftop terrace complete a sensorial journey where serenity takes the lead.

Each room honors the spirit of the original house, blending global influences with local craftsmanship. At the heart of this experience lies the **Vivenda Formula**:

## Vivenda Bedding Recipe

1. **Percalé cotton sheets and duvet cover** — perfect balance between freshness and warmth.
2. **Microgel pillows and plush duvet** — softness that embraces rest.
3. **Zero Twist cotton robe** — a bathing ritual that extends comfort beyond the room.
4. **Bliss cotton towels.**

Each room tells a story of rest — one that honors memory, craftsmanship, and the quiet art of sleeping well.

Each insert —pillows, duvets, and mattress toppers— is crafted to suit you, blending volume, lightness, and ideal support for every kind of rest.
